Innovations are built together

**Over 100 years,**  
over 100 times per day

# Meconet

Meconet is your North-European partner in springs, stampings, deep drawn products and qualified assembly works. We design and produce demanding metal components and assembly works for our clients' needs. We help our customers to tackle challenges in product development, production and supply chain.

# Meconet provides complete solutions through-out the product lifecycle

We offer the whole chain from product development to prototypes and from small series to efficient volume production. The earlier we start co-operation, the greater impact we can together make to the end products' price and functionality.

## Product development and planning the manufacturing process

- product design and process simulation
- options for production methods
- prototypes and small series
- own tool design and tool manufacturing

## Production and core technologies

- springs
- stampings
- deep drawn products
- assembly and delivery management

# We succeed together with our customers

Our customers, whether big or small, want to be world-class companies in their fields. They want to focus on their core business and need a reliable partner, who will help to

- increase competitiveness
- do seamless co-operation

**Springs for  
locking systems**

**Deep drawn parts  
for work machines**

**Stampings for  
electrical switches**

You probably meet  
Meconet products over

**100**

times every day.

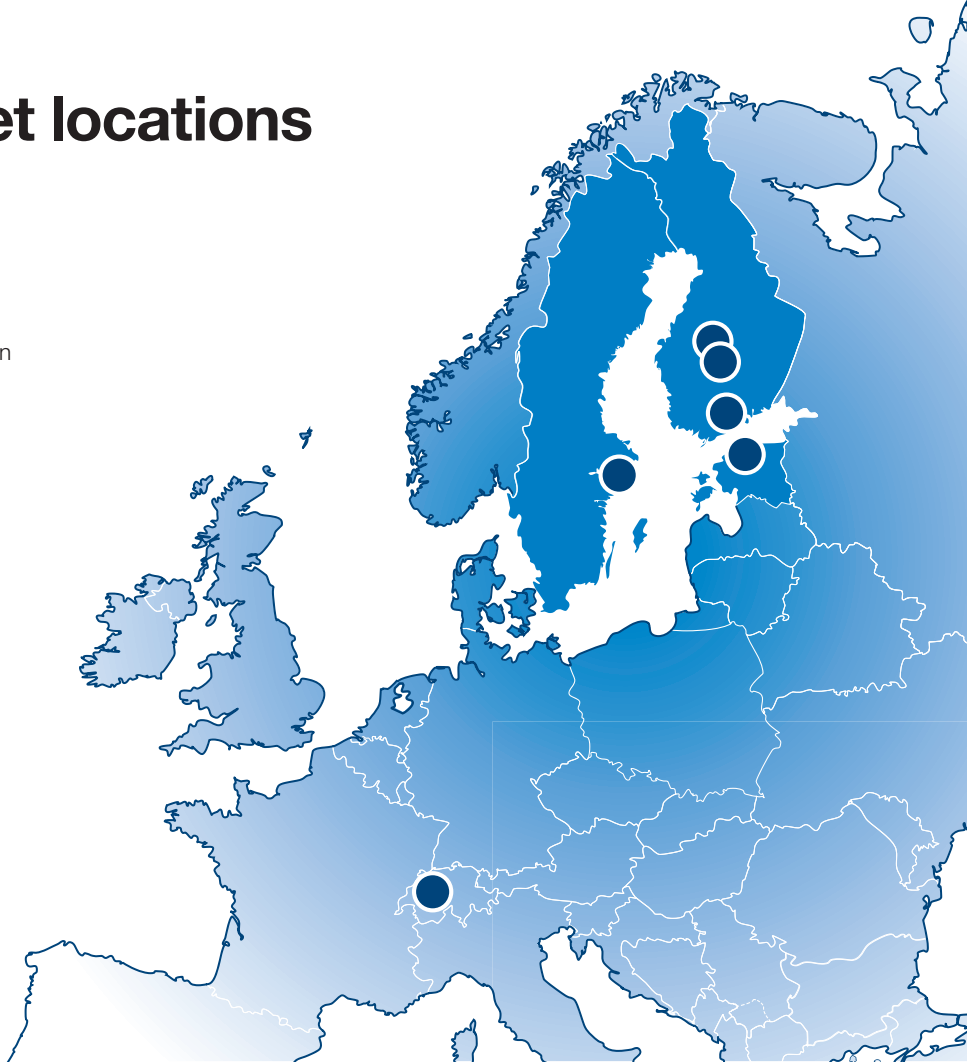

# We believe in future

Meconet is a family owned company with over 100 years history. We are passionate about our clients: we react fast on your needs and focus on long-term co-operation. We invest in people, in new technology and in continuous improvement according to LEAN principles. We are guided by certified ISO 9001 quality system and ISO 14001 environmental system.
